SKILLS

- **Technical Skills:** HTML, CSS, JavaScript, Java, C, Flutter, Firebase, Firestore, Leaflet.js
 - **Tools:** GitHub, Arduino IDE
 - **Other:** Responsive Web Design, OOP, Basic IoT
-

EDUCATION

Bachelor of Vocation (B.Voc) in Information Technology
Graduated – 2026

PROJECTS

CivicLens — Smart Community Waste Reporting System

Technologies: HTML, CSS, JavaScript, Firebase, Firestore, Leaflet

- Developed a web-based platform for reporting and tracking community waste issues.
- Implemented authentication, report submission, image upload, location selection, categorization, and status tracking.
- Built an admin dashboard with report management, search/filtering, and statistics.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Developed a responsive personal portfolio website to showcase projects, technical skills, and certifications.
- Designed a clean, user-friendly interface with responsive navigation and project sections.

IoT-Based Blind & Deaf Supporting System

Technologies: Arduino, C++, GPS, GSM, Ultrasonic Sensors

- Developed a smart assistive system to improve safety and accessibility for visually and hearing-impaired users.
- Integrated ultrasonic sensors, GPS, GSM, and an SOS feature for obstacle detection and emergency communication.

Flutter Mobile Application

Technologies: Flutter, Dart

- Developed a mobile application with a clean and responsive user interface using Flutter.
 - Implemented basic Flutter components and navigation for an interactive mobile experience.
-

CERTIFICATES

- HTML, CSS, JavaScript and jQuery - Internship
- Flutter - Internship
- Develop Your Brand Using Social Media (Job Application Essentials) - IBM SkillsBuild
- Strategic Planning in the AI Age - HP LIFE, HP Foundation, Sep 2026
